Advice On Mobile Security From BrownGlock

Editor's Picks Information Security by Peter Block - November 18, 2015

We held a joint event on II November about cyber risks at Trowers & Hamlins with BrownGlock, Hiscox and Vantage Professional Risks for General Counsels, Company Secretaries, and business risk professionals. Peter Glock gave an overview current cyber risks and gave a demonstration of how simple it is to intercept email and other presumed secure communications from mobile devices.

After the demo, we distributed a paper on simple advice to secure mobile communications. We're delighted to publish that white paper here in case you missed it.

BrownGlock LEARNING TO REDUCE CYBER RISK	Type of Ad	Size (pixels)	Cost GBP	
			6 months	12 months
Brown Glock offers bespoke marketing and research opportunities, for those firms looking to differentiate their products.	Header Ad	W:728mm x 90	£1800	£3060
